Quality Manager  
IEC Electronics

Dear XXX,

Inserted in this email is Boeing Representative XXX's audit report. As XXX reports, he was most impressed with IEC. It was quite a pleasant experience for me, also. Everywhere we looked, we saw evidence of Lean Manufacturing, Six Sigma, and 5S. The facility is spotless, the Customer X program is professionally run, personnel are well trained and knowledgeable, and the quality system is extremely evident in everything IEC does.

I was most impressed with how any IEC person questioned, about any detail, found a way to work the quality policy into their answer. You all should be very proud of what you are making of IEC Electronics. I was proud to introduce IEC to our customer, Boeing. Thank you all for a job well done!

Manager,  
Product Assurance Systems  
Customer X
